Drumheller Valley Secondary School

Student Comments

Wow! This drill is so cool and it has so much power! I want one for Christmas. (grade 7 student)

It is so great to have all these cordless drills to use in my class. (Grade 8 student)

I really like using the Dewalt Scroll saw. It hardly takes me anytime at all to cut out my latest project in my grade 8 construction class.

When the teacher tells us it is clean up time, I can't wait to get to the DeWalt vacuum to use to suck up the sawdust. It almost makes cleaning up fun. (Grade 9 student).

I can't believe how many drills we now have to use in our class; they are cordless and have so much power.

The portable circular saw looked small but I am very pleased with how well it performs.
