

Thank-you

I am writing this letter to thank the fine people at DeWalt and Skills Canada for the contribution of the fantastic collection of DeWalt cordless and corded power tools. At Centre Wellington High School we have a variety of shops including automotive, manufacturing, construction, woodworking, agriculture and an introductory integrated technology program. Every one of these programs has benefited from your generous donation.

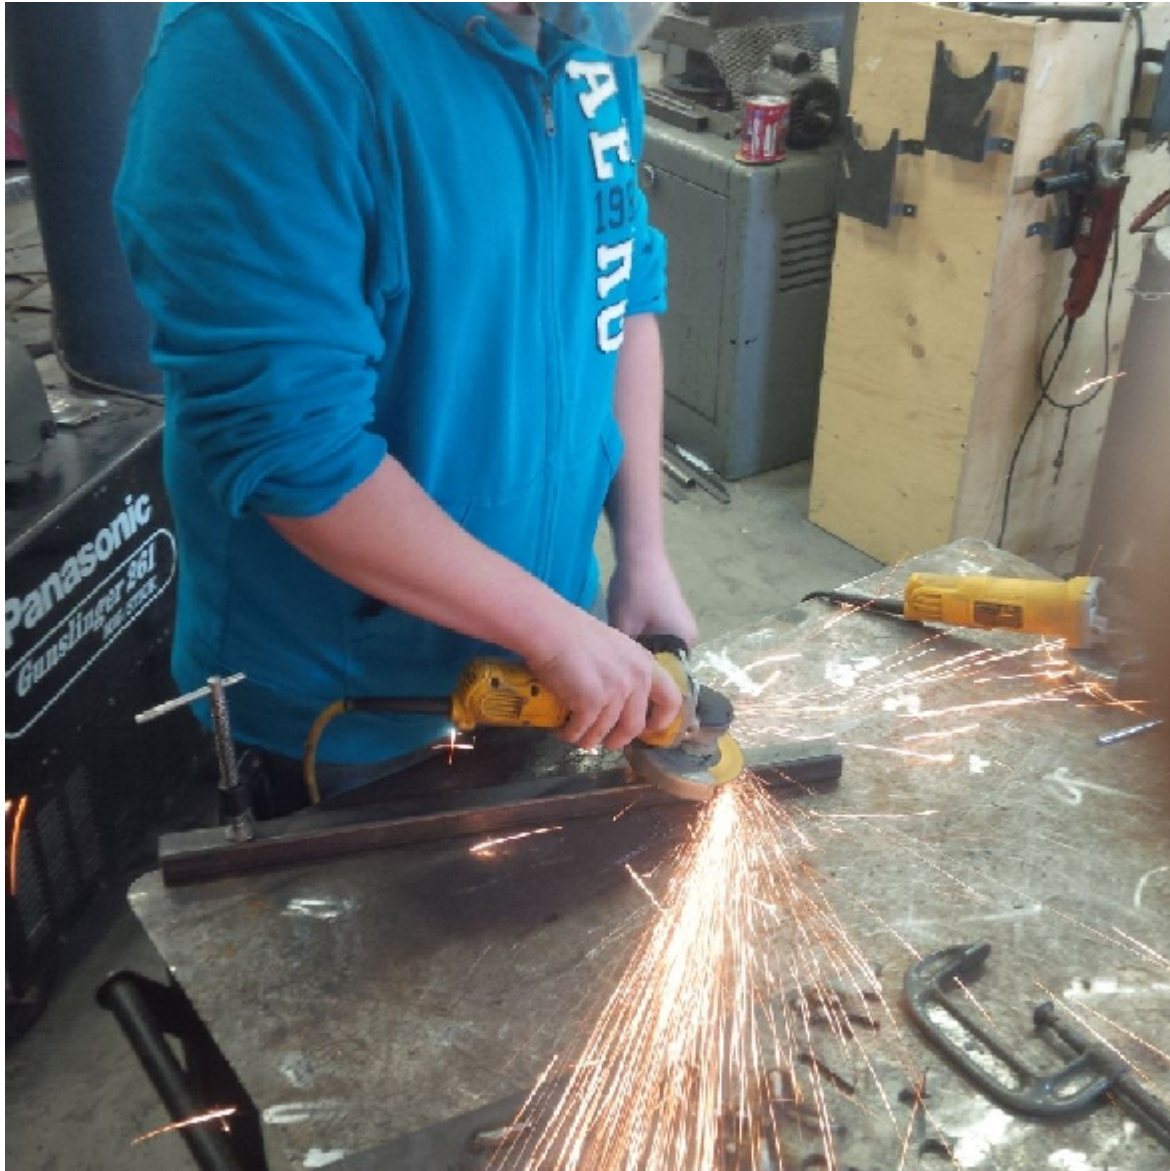

These tools are being used for every type of project in every area of technology at our school and are an essential part of the student learning and skills development.

From projects in Custom Woodworking:

## Manufacturing Technology

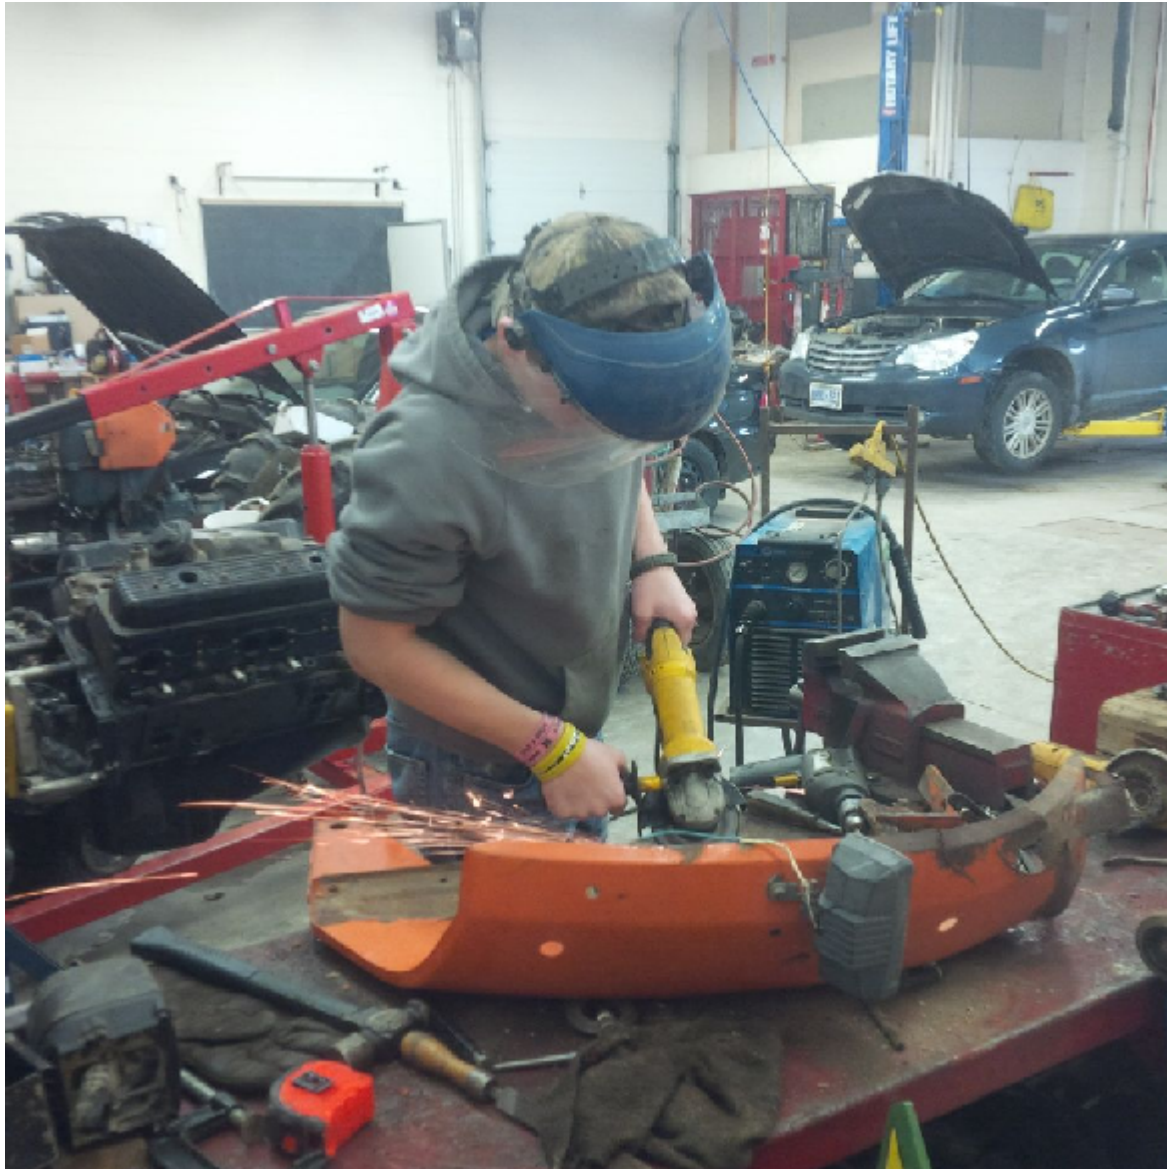

## Construction Technology:

And Transportation Technology:

On behalf of the entire Technology Department at Centre Wellington District High School we would like to thank you once again for giving us the opportunity to teach our students with the tools currently being used by huge percentage of trades people in our area. We would never have been able to make this investment on our own and appreciate all that you collectively have done for our students.

Sincerely: Geoff Patterson, Chris Priester, Rob McColeman, Rich Preston, Katy Lloyd, Richard Vandervlugt, Chris Jess, Nicole Debeyer, and Tim King
