1 THE SKILLS FOR SUCCESS FOR CAREERS IN THE SKILLED TRADES AND TECHNOLOGY

The Government of Canada has updated the previous Essential Skills framework to the new Skills for Success model in response to the evolving labour market and changing skill requirements. This model outlines nine fundamental skills Canadians need to thrive in work, education, training, and daily life.

Skills/Compétences Canada aims to highlight the importance of these skills, vital for success in trade and technology careers. Competitors can see how Skills for Success are integrated into contest descriptions, projects, and project documents. Recognizing these skills during the competition helps competitors match tasks with specific skills necessary for success and understand how these skills apply within their trade or technology programs and future careers.

The nine key Skills for Success, validated for workplace success, are:

1. Numeracy
2. Communication
3. Collaboration
4. Adaptability
5. Reading
6. Writing
7. Problem Solving
8. Creativity and Innovation
9. Digital

These Skills for Success are detailed in sections 2.3 and/or 3.2 (to be completed by SCC) of your Contest Description and, if relevant, in your Project and supporting documents.

It provides a platform for participants to demonstrate their expertise in various beauty treatments and techniques, such as facials, manicures, body treatments and makeup, fostering a spirit of excellence and innovation within the industry. Through rigorous assessment by industry experts, these competitions not only celebrate outstanding talent but also set high standards, inspire continued education, and highlight emerging trends. Ultimately, they contribute to the advancement and

Detailed instructions for this massage is available on the SCC website for reference.

Competitors are required to apply a bold red gel polish to nine fingers, leaving one ring finger unpolished. On this ring finger, they will create a hand-painted nail art representation of one of the seasons—spring, summer, autumn, or winter—without any three-dimensional decorations. The design will continue from the ring finger, across the back of the hand, and along the forearm up to the elbow, using any chosen art medium. All artwork must be hand painted and free from any embellishments. Competitors are responsible for supplying their own tools and materials for the freehand nail, hand and arm design.

Corrections are permitted. Polishes to be supplied Sponsor- LCN Pro Beauty .

Creative Makeup: Seasonal Fusion^{2, 7, 8}

In the seasonal fusion creative makeup challenge, competitors will use their own makeup and tools to create a unique design. The task is to blend the essence of two chosen seasons onto the face and décolleté, with equal representation of each season (50/50 split). Competitors may choose any two seasons for their design.

Judging will focus on creativity, technical skill, color harmony, theme representation, and overall impact. Competitors should aim to create a memorable fusion of two seasons, using two accessories to enhance their design.
